

Want to learn more
about Voice Care &
Science?

As you have perhaps heard, a European Academy of Voice has been founded by the PEVOC Advisory Board. It consists of 11 members representing different fields of expertise within the voice field. They asked us to plan and organize the Academy's activities.

The Academy will arrange a one-day Voice Care and Science Tutorial on Wednesday, March 25, 2026, just before PEVOC in Istanbul. As you can see below, it will consist of eight interactive workshops. Each workshop is taught by experts, renowned for their superb pedagogical talent.

After completing the entire tutorial, participants will receive a signed certificate. The fee for participation will be 80 Euros. For details see www.european-academy-of-voice.org.

Welcome to the eighth European Academy of Voice one-day tutorial!

Johan – Markus – Frank

Workshops

- A. Anatomy, physiology, pathology
Filipa Lã
- B. Endoscopy, stroboscopy, VKG and high speed imaging
Markus Hess & Frank Müller
